

## **HUMAN RELATIONS**

**The Board of Education believes in the worth and dignity of each individual in the community and is aware of the conflicts that can occur between individuals and groups as a result of differences in background.**

**The Human Relations programs and activities shall be designed to promote communication between and among individuals and groups and to improve attitudes, understanding, and respect for human differences.**

**The Board and administrative staff will provide leadership and guidance in the development of such programs and activities and will solicit home, school, and community participation.**
